A godsend for every parent and professional who has ever been confronted with the perplexing and frustrating challenges of unpredictable and uncontrollable outbursts that seemingly have no rhyme or reason. This book provides some realistic approaches and a wide variety of simple, doable techniques for coping at home, in school and in life. The author is a social worker who first struggled with these challenges in her

own home and then with her clients.

Dysinhibition Syndrome

Each project in this book combines bookbinding with a specific craft such as quilting, jewelry making, or polymer clay, and offer levels of expertise: basic, novice, and expert. Illustrated step-by-step instructions and photographs demonstrate how to construct the cover pages, and a unique binding technique, easy enough for a beginner to master. Each project also features two other versions with the same binding geared to those with more or less experience. The novice version is for those who have no knowledge of the craft and want shortcuts, but love the look. For the quilter's book, for example, vintage quilt pieces become the covers so all that's needing in the binding. Or if you're interested in wool felting use an old sweater. This offers great opportunities for upcycling. The expert version is for those who have a great deal of knowledge and proficiency of a certain craft - the master art quilter, for example. For this version, an expert guest artist has created the cover and the author has created the binding. This offers yet another creative opportunity - the collaborative project. Since crafters often get involved with round-robins and other shared endeavors, this will show them yet another way to combine their skills. No other craft book offers the possibilities and challenges that Adventures in Bookbinding does. Readers will return to it again and again to find inspiration and ideas.

Adventures in Bookbinding

This is the first volume of the two-volume autobiography of Colin Seeley, a famed British motorcycle racer and builder. The book is full of anecdotes, escapades, personalities and memorable descriptions on and off the track which give a fantastic insight into the racing and technical achievements over three great decades in motorcycling history.

Colin Seeley

This is the story of Lawrie Watts and his amazing technical artworks, illustrations, and cutaway drawings of motorcycles, motorcars, aircraft, and farm machinery. He was drawing amazingly complex machinery with meticulous attention to detail way before the development of CAD. Lawrie is not just an artist; he's a designer too. An example of his designs was the Enfield-powered Dreamliner.

"World War II was a traumatising experience for those nations that were caught up in it. Nowhere was this more apparent than in Undivided India where over two and a half million Indians volunteered to serve in the armed forces and to fight against the evils of the fascist Axis Powers. Those Indians who served and fought had their own motives but a predominant one was pride and satisfaction in doing a soldier's job and earning a soldier's pay. Service in the Indian Army was respected, particularly in rural communities, and money sent home by a soldier could over time transform his family's social status. As it had done towards the end of World War I the Indian Army in World War II opened its arms wide and recruited from many varied castes and backgrounds, and few were found wanting. The demands made on India to provide servicemen and women were massive. Indian Army formations contributed significantly to the defeat of Italian forces in East and North Africa and then to the much more difficult confrontations with German troops. Dark days followed when Japan invaded Hong Kong, Borneo, Malaya and Burma. Indian troops predominated in the defence of those regions and many were killed in action or ordered into captivity by their commanders. After realistic re-assessments of the threats faced in Asia had been made, and the new training and motivation required had been delivered, the Indian Army emerged again in 1944 and 1945 as the most proficient and economical Allied force in Asia. Meanwhile Indian troops, not forgetting the large number of Nepalese serving in the Indian Army, fought Vichy French forces in Syria, nationalists in Persia and Iraq, and above all else Germans in North Africa and Europe – and they won their battles. This book will show you how the Indian Army was tested during World War II, and how it prevailed using courage, professionalism, honour and dignity."

What Makes Ryan Tick?

The most famous of all British racing motorcycles, with an ancestry dating back to the very dawn of the internal combustion engine, the 'cammy' Norton is inseparable from the era of British domination in motorcycle racing. It is linked with the legendary heroes of the sport, Jimmie Guthrie, Harold Daniell, Geoff Duke, John Surtees, Mike Hailwood and the age when Britain had the world's finest motorcycle industry. This revised edition of the definitive history contains additional material and traces the design, development, the leading riders and tuners. It presents a superb collection of photographs, many previously unpublished. The Manx Norton covers not only the Manx itself, but also features boardroom battles, Norton's early history, record breaking, sidecars, Formula 3 cars, scrambling (motocross); the Domiracer; racing at Daytona and today's classic scene.
